

Every journey
begins with a

first step

and we took ours back in 1978.

In 1978, Toffeln is founded by Denys Leflaive, with a vision to enhance foot well-being of healthcare professionals.

1990

Toffeln becomes the UK's leading supplier of footwear for the healthcare sector.

1995

Relocated to new Head Office in Bristol to support continued growth.

2008

Toffeln diversifies its offering by launching the first non-footwear product range.

Toffeln started with a single purpose – to enhance the foot well-being of healthcare professionals with functional and fashionable, ergonomically designed footwear.

We've come a long way since then, and whilst we're still committed to supporting healthcare professionals on their feet, we go so much further now.

We provide a wider range of products which aid safer, more efficient, smoother running healthcare departments, hospitals and trusts. This means helping improve patient outcomes, along with enhancing the well-being of those who administer care.

Toffeln®

2014

Partnered with Salford Uni to drive footwear innovation.

2020

Expands Bristol Head Office to accommodate a growing team and operations.

2023

Acquires CSSD supplier, strengthening healthcare offering.

2024

Further expands with acquisition of a leading electrosurgical supplier.

Thinking on your feet

We enhance foot well-being and support healthcare professionals through every shift.

We understand the harm poorly designed footwear can inflict. That's why we create advanced, compliant, and stylish footwear with leading biomechanics researchers. Our ergonomic, lightweight footwear ensures your feet are comfortable and healthcare ready.

GripSafe Extreme SRC rated sole for high slip resistance to reduce slip accidents at work.

Our partnership with Salford University

University of
Salford
MANCHESTER

Comfort isn't guesswork—it's science. Through our partnership with Salford University we have access to world-class researchers, professors and laboratory facilities. Our research focuses specifically on the needs of healthcare professionals, giving us deep insights into the footpain they experience and how our footwear can counteract it. By combining cutting-edge research in biomechanics with our expertise in crafting high quality footwear, we create footwear that reduces pain and fatigue—keeping you comfortable and supported through even the longest shifts.

SmartSole Elite

Sleek. Supportive. Shift-Ready.

Crafted in a timeless six-eyelet design, this lightweight lace-up trainer offers slipper-like comfort with the support healthcare professionals need. We've engineered every detail for maximum comfort and performance - from the fatigue reducing footbed to the slip-resistant sole, the Elite is a safe and stylish choice.

Green T EziKlog

The world’s first carbon neutral clog.

Using the same comfort technology trusted worldwide by countless doctors, nurses and other healthcare professionals, we’ve taken our best-selling EziKlog and made it carbon neutral. It’s made from a renewable EVA compound and has a recycled rubber sole which is antistatic, slip-resistant and meets all the regulations required by healthcare professionals.

➤➤

Made from sugar cane
Using a renewable EVA compound, the new Green T EziKlog is made from 51% sugar cane waste.

Features:

- 1 Raised Heel**
Helps distribute pressure for improved comfort and less fatigue.
- 2 Lightweight**
Minimises the stress and strain on the feet and legs throughout the day.
- 3 Breathable**
Side vents ensure the feet stay cool throughout the day.
